

VAR Model

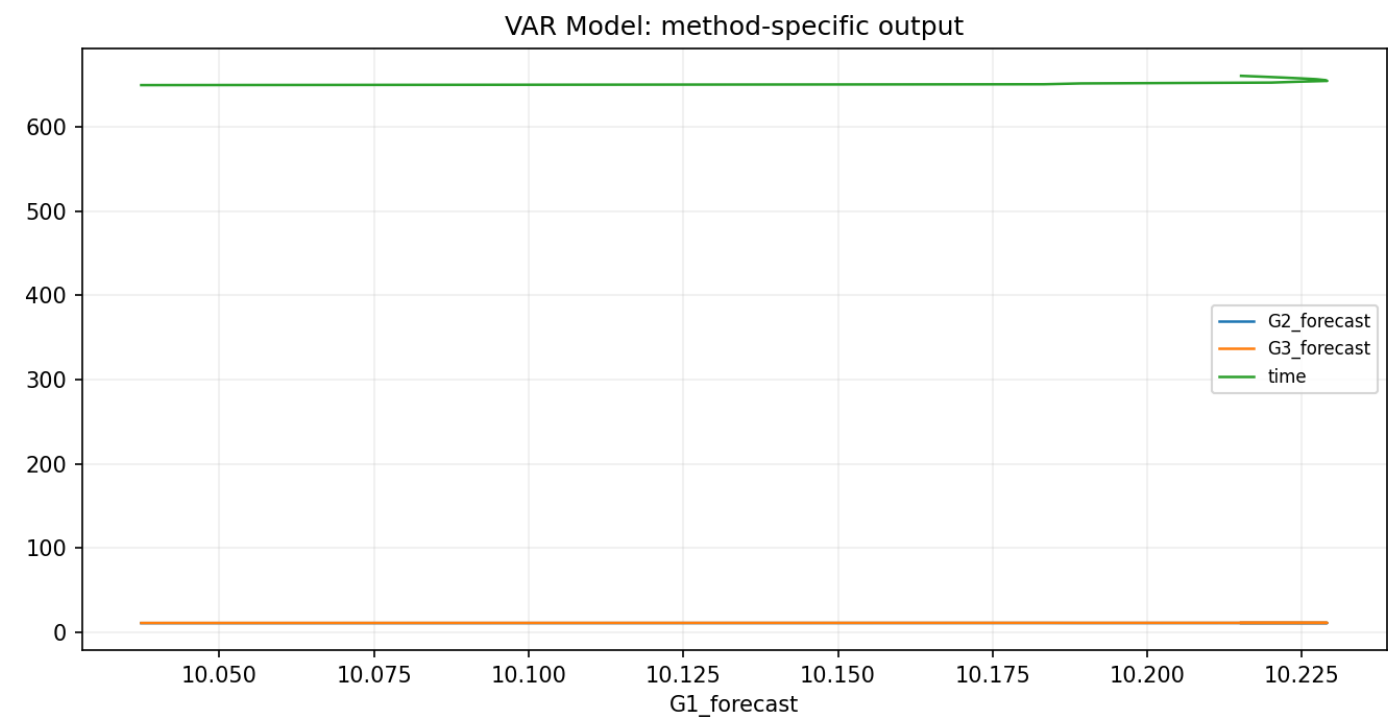

multivariate_time_series_model | source-row order | page 1

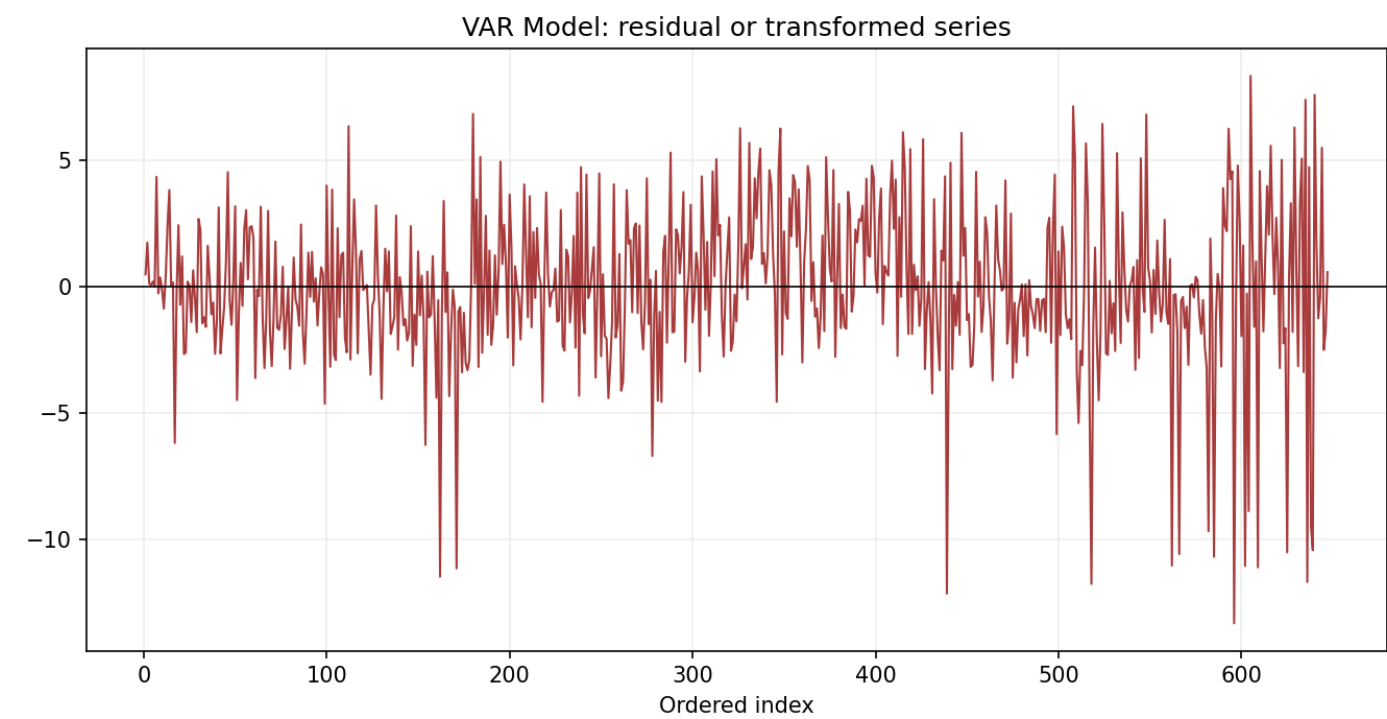

Method type: multivariate_time_series_model
Design: Three-variable VAR(2) for G1, G2, and G3 with intercept and trend.
Formula: $Y_t = c + D \cdot t + A_1 \cdot Y_{t-1} + A_2 \cdot Y_{t-2} + e_t$
Variables: G1, G2, G3
Series order: source-row order
lags = 2
n_series = 3
aic = 2.9824458039686785
